All switches look **THE SAME** outside

Air Switch™

Simplest Lighting Automation

Introducing Air Switch™ by SFTEC Technology : *The Simplest Lighting Automation today!*

You will very quickly realise that it was designed to provide you the next level of comfort and lighting automation.

- Its crystal tempered glass wall panels allows you unlimited switch on and switch off without worrying about the buttons losing contact.

- Its stand alone technology means it is very simple to install without the need for any new wires or rewiring.

- Its built in real energy saving dimmers means you will really save money when you dim your lights.

- Its RFID Switch Protocol means you can control and dim all or any switches within the space of 100m or even up to three floors high.

Air Switch™ enables you to create the perfect ambience for different rooms instantly, combining different lights to achieve your desired moods or use our pre-set lighting mode to memorise your favourite scenes. Plus Air Switch™ comes in five beautiful colours to match your interiors!

Don't settle for any other switches.
Choose Air Switch™ and fulfill your living aspirations!

1 Lockable Dimmer - allows you to decide if you want the lights to dim or not.
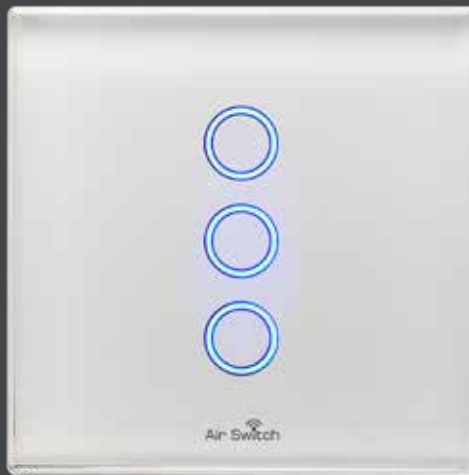

2 Flexible Dimming Technology - guaranteed to work with any tyope of dimming bulb, either Leading Edge or Trailing Edge.

3 On Device Setting - simple 3 step programming. No need for complex softwares and trained programmers.

4 RFID Protocol - works the best in enclosed spaces and up to 100m distance.

5 Crystal Glass Touchscreen Wall Panels - 100% Electronic Controls with Tampered Proof Glass.

6 Power Loss Memory - Never worry if there is power lost, all your settings will be memorized.

7 Stand Alone "Plug & Play" System - No rewiring. No mess.

BUT ARE VERY DIFFERENT INSIDE!

PRODUCT
SPECIFICATIONS

Air Switch ™
Simplest Lighting Automation

TOUCHE

Number of Switch:	1 - 3
AC Voltage:	80 - 250 V
Maximum Load watt:	400W
Dimmable:	Yes*
Multi-Way Switch:	Yes*
Control Device:	Switch & Remote
Maximum Remote Distance:	30 m
Dimension:	10x86x86 mm
Material:	Fire Retardant ABS
Color:	White / Yellow / Blue / Pink / Gold / Black*

REMOTE CONTROL

Number of Button:	9
Scene Memory:	3
Dimension:	10x50x108 mm
Dimmable:	Yes
Battery Type:	27A
Transmission Mode:	RFID
Maximum Remote Distance:	30 m
Material:	Fire Retardant ABS
Color:	White

MINI REMOTE CONTROL

Number of Button:	3
Scene Memory:	2
Dimension:	8x44x94 mm
Battery Type:	27A
Transmission Mode:	RFID
Maximum Remote Distance:	30 m
Material:	Fire Retardant ABS
Color:	Black / Crystal Blue

UNIVERSAL PLUG

Maximum Voltage:	250 V
Maximum Amperage:	10 A
Dimension:	35x86x86 mm
Outlet Type:	Universal Socket / Universal Socket with Dual USB Ports*
Material:	Fire Retardant ABS

AIR BLOC

Number of Switch:	2
AC Voltage:	85 - 250 V
Maximum Load watt:	400W
Dimmable:	Yes
Control Device:	Button / Remote
Maximum Remote Distance:	30 m
Dimension:	31x55x103 mm
Material:	Fire Retardant ABS

PIR MOTION SENSOR

AC Voltage:	110 - 250 V
Maximum Load Watt:	200 W
Delayed Time:	10 - 500 Second
Light Sensitivity:	1.5 - 1000 LUX
Sensing Distance:	6 m
Sensing Angle:	120° Left/Right, 100° Up/Down
Dimension:	35x86x86 mm
Material:	Fire retardant ABS
